

KETAN MALI

SOFTWARE DEVELOPER

Sirohi, Rajasthan | 7014910653 | ketanmali692@gmail.com | github.com/ketanmali692

PROFILE

BCA student aiming to become a Software Developer. I have built a voice assistant in **Python** and a card matching game in **Java**. I learn fast and I am looking for an internship to grow.

PROJECTS

Personal Voice Assistant

Python | SpeechRecognition, pyttsx3, PyAutoGUI, OpenCV

- Built a voice-controlled assistant that runs a Windows laptop hands-free.
- Opens and closes apps, sends WhatsApp Web messages, starts the camera and creates Java files by voice.
- Handles system commands such as shutdown, restart and sleep.

Card Matching Game

Java

- Developed a memory-style game where the player flips cards to find matching pairs.

EDUCATION

Bachelor of Computer Applications (BCA)

Adarsh College of Professional Studies, Abu Road

Currently in 2nd year | Expected 2028

CERTIFICATIONS

- **Java** - Simplilearn (Sept 2026)
- **Python** - Simplilearn (Sept 2026)

SKILLS

PROGRAMMING

C

C++

Java (Basic)

Python (Basic)
